MILESTONE WOMEN KOLLEKTION AUTUMN/WINTER 23/24 - LEATHER

Neue Kollektionsstrategie: Für DOB Leder und Textil wurde die Modellvielfalt für die Prekollektion gegenüber der K1 deutlich ausgebaut, um dadurch unseren Einzelhandelspartnern mehr Liefersicherheit bieten zu können.

COLOURS

Powdery, harmonious winter lights like Silver, Blurred Taupe, Shell Grey, Cooled Cream comprise the bright feminine colour range.

70ies inspired burnt earth tones like Camello, Café au Lait, Brittle, Clay, Siera and Rusty play a big role and bring deeper tones to the colour range.

Sophisticated jewel colours Ruby, Emerald, Green Topaz and Bronze reflect the retro longing.

Cool shades of grey present themselves in all conceivable facets: In addition to light grey as a top favourite, the new statement shades Granite and Steel Grey are also available.

Shades of blue are absolutely on trend in all shades: from washed-out Stormy Blue and rich Regatta Blue to deep New Moon and Navy.

New highlights: Electric blue and Magenta. Urban contrasts in offwhite/ black make a strong statement.

MATERIALS

New! - Lamb nappa in a new „cloudy“ garment dyed look creates completely new looks that were previously hardly imaginable and realizable in leather.

Highest quality fall velour in 70ies „Halston“ look brings back the hip retro look.

Finest glove nappa is presented in top current, urban-elegant puffer jackets and coats.

New Mix & Match: Surprising material combinations set new fashion impulses. Velvety velour with curly fake fur bonded shows up in cosy winter looks, combining with tonal nylon quilted inserts for a special sophistication and detail.

Urban & casual: Nappa light quilted hoodie with scuba details.

Ultra-thin nappa leather bonds with technical spandex jersey for super lightweight, elegant indoor looks.

A successful, practical and top trendy combination: soft nappa in sporty styles combined with zip-out nylon quilted hoodies.

Cosy faux fur inserts in elegant winter quilted jackets combined with natural luxury nappa create a tonal high-end look.

Fine iridescent metallic glitter looks on tactile washed nappa.

And last but not least, a very special trend highlight straight from the catwalks: Broken patent leather looks with a subtle patent sheen in a vintage look.

PADDING AND SILHOUETTES

Cosy cocoon looks with large-scale, new quilted variations continue to dominate the street scene unabated. The cuts and fits are becoming more lush and airy to match the layering trend: shoulder fits are becoming more overcut as a result, and the cut of the sleeves is becoming slightly wider as a result.

The leather collection reflects the trend a little less pointed. Fashionable, at the same time suitable for everyday use and understandable.

Main silhouettes are A-shapes, long H-shapes and defused O-shapes. Shortened boxy looks complement the wide leg trousers trend.

Even oversized and airy cut puffer jackets remain lightweight thanks to the super light DuPont SORONA AURA padding. The insulation impresses with its lightness and optimal thermal insulation as with a 90/10 down filling. This padding consists partly of renewable, vegetable raw materials.

But also the „counter-trend“ of (again) slim quilted light down looks is taken up in the collection to the early delivery program.

Long quilted vests remain a huge theme and are the perfect look companions for the trendy chunky knit sweaters with wide balloon sleeves.

An absolute must-have: 2-row coats have arrived from the catwalks to the promenades of the big cities.

Indoor jackets with figure-flattering cuts replaced blazers as cool new counterparts.
