MILESTONE MENS COLLECTION SPRING/SUMMER 24 - LEATHER

COLORS

The current MILESTONE leather collection F/S 24 reflects many influences, the current zeitgeist, the world that surrounds us with its diversity and the countless opportunities that we have. Yet it also reflects choosing the best of the opportunities that present themselves, finally having arrived, the peace and serenity that allow us to make the right choices, be happy and move forward with this positive feeling.

The concern for nature and the effort for more sustainability is also reflected in the current colors of the new season.

However, the focus on natural colors by no means means color restraint, as it also includes intense hues inspired by the four basic elements of fire, water, air and earth.

Brown, gray, beige describe earthy, matte tones.

The spectrum of blue tones shows itself in very different new shades. These are great for both classic and emphatically modern looks, so they can be used in a variety of ways.

The blue spectrum passes into greenish shades, where, in addition to the vegetal nuances, very light shades also appear.

MATERIALS

The new collection is characterized by a particularly careful selection of high-quality leather and the skillful combination of classic cuts with innovative design elements.

By combining casual design elements with classic design, innovative, sporty looks are created from fine, sometimes washed, materials.

Thoughtful and technically optimized shapes with high quality materials and textures for the aesthetically demanding man.

The use of high-quality, carefully selected leather qualities such as lamb, goat suede and soft nappa creates the key looks of the new season.

These guarantee a stylish appearance – day after day.

SILHOUETTES

The collection combines technical added value with fashionable appeal.

The new MILESTONE leather collection combines masculinity and clarity, and thus stands for class and refined understatement.

The clear design language and the skilful, playful mix of patterns and materials meet even the highest demands.

Waisted jackets and blazers are more in focus for the new season.

Shirt jackets are enjoying increasing popularity and are now essential for any closet.

Bomber jackets are considered all-time favorites and a staple of the collection.
The extensive variety of shapes in the MILESTONE summer collection leaves nothing to be desired.
